

German territory on the pretext of the right of peoples to self-determination. The new territorial claims upon Russia are apparently advanced in the interest of Turkey. Batoum, a strongly fortified seaport on the Black sea, in Transcaucasia, about twenty miles north of the border of Turkish Armenia, was one of the cities ceded by Turkey to Russia after the Russo-Turkish war of 1877-78.

TEUTONS HAD TREATY READY. AMSTERDAM, March 2.—A dispatch from Brest-Litovsk filed yesterday says that fresh peace negotiations with Russia were opened yesterday at a plenary meeting under the chairmanship of Minister von Rosenberg, assistant to the foreign secretary.

As regards the regulation of political questions, the chairman proposed that a common treaty should be concluded between the four Teutonic allies and Russia, while economic compacts and legal questions should be dealt with partly in appendices to the main treaty and partly in supplementary treaties for each separate allied power.

The head of the Russian delegation expressed agreement with this plan, whereupon the actual negotiations were begun. The chairman then handed the Russian chairman the draft of the main political treaty drawn up jointly by the allies and gave a detailed explanation of the individual treaty stipulations. The drafts for the economic and legal agreements, with a corresponding explanation, were likewise communicated. The Russian delegation reserved determination of its attitude to the individual points until the material in its entirety is laid before it. The negotiations were continued in the afternoon, and according to a later dispatch the next plenary sitting was fixed for this (Sunday) morning.

Expect Trotsky to Quit. According to reports from Poland, Leon Trotsky, the Bolshevik foreign minister, did not return to the peace conference at Brest-Litovsk because Germany objected to his continuance as a Russian delegate. It is stated that Trotsky's resignation will be forthcoming as a result.

Austrians Sweep Through Podolia. VIENNA, Saturday, March 2.—[Via London.]—The staffs of two Russian corps and three infantry divisions have surrendered to the Austrian forces, according to an official statement given out at the war office. The troops were taken in Chotin and Kamenez-Podolsk, capital of the government of Podolia. The Austrians also have captured 300 guns and large quantities of munitions and other war materials.

Plunder British Embassy. LONDON, March 2.—The British embassy was plundered by Russian troops, in command of a colonel, immediately after the embassy staff left Petrograd, according to a Petrograd dispatch received by way of Dusseldorf and Amsterdam.

Another report says that the Russian troops broke into the embassy while the British chargé was still there, and, ignoring his protest, burned some documents and confiscated others.

The charge, it is understood, made a protest to Leon Trotsky, the Bolshevik foreign minister, who replied that the government could not be held responsible for the outrage.

SWEDES OPPOSE TRADE POLICY WITH ENTENTE

STOCKHOLM, March 2.—The terms of the agreement between the Swedish government and the allies, which were published today, failed to evoke much enthusiasm even from the liberal press, while the conservatives are openly dissatisfied.

The Stockholm Dagbladet declares Sweden pays a high price for an agreement which gives her no breadstuffs. The Svenska Dagbladet is of similar opinion. The Dagens Nyheter, which is one of the organs standing closest to the government, says the quantities of articles receivable by Sweden "are regrettably small," and that Sweden appears to have paid a high price for them. The insurance provided for ships going into the allied service is held to be an inadequate recompense for eventual losses.

The Stockholm Tidningen, a liberal organ says: "In fairness one cannot praise the modus vivendi in very high tones."

Russia Peace Expected to Speed Jap Action in Siberia

BULLETIN.

TOKIO, March 2.—According to reliable reports, the cities of Irkutsk, Blagoveshchensk, Omak, and Khabarovsk are completely in the hands of the maximalists.

[Irkutsk is situated at the southern end of Lake Baikal, and is the center of a rich agricultural and mining region. Blagoveshchensk is the capital of the province of Amur and controls a rich gold mining section. Omak is the capital of the Khabarovsk province and of the general government of the Steppes. Khabarovsk is the capital of the littoral or maritime province, and is situated at the junction of the Amur and Ussuri rivers. All are important cities of eastern Siberia.]

Washington, March 2.—One of the immediate effects of the signing of Germany's peace terms by the Russian Bolshevik representatives probably will be to bring to a quick conclusion negotiations among the allies and the United States over steps to be taken in Siberia to protect military stores there and check any move the Teutons may make in that direction.

There still are indications that the American government will join with the allies in agreeing to action by Japan alone, with an understanding as to the scope of any operations to be undertaken. So far there has been no announcement of an agreement, but even before the news that the Russian Bolsheviks had accepted the German terms came, it was understood that exchanges on the subject were about concluded.

President Wilson has been following the situation in Russia very closely, particularly because of its close relation to the important step proposed by Japan. There have been suggestions that he might appear before congress soon to make a statement on the subject.

MOSHER TO TELL HOW TEUTONS WARPED SOULS

An amazing story of the transformation of the German soul from the poet-artist-dreamer-philosopher of the early nineteenth century, before Germany was Prussianized, to the materialistic, conquest-baiting, world-dominating nation of today will be told in vivid detail tomorrow night at the great meeting of the Friends of the German Democracy at Orchestra hall.

Prof. William E. Mosher of Oberlin college, himself of German stock, will relate experiences obtained in a protracted visit to Germany and German universities some time before the war.

Other speakers will be Otto C. Butz, president of the western branch of the society, who will preside; the Rev. Thomas F. Dornblaser of the Lutheran church, Karl Mathie, secretary of the western society; Prof. Max F. Meyer of the University of Missouri, one of the most distinguished scholars of German blood in the country, and William E. Bohn, secretary of the eastern branch of the society. All of the speakers are of German blood, and several were born in Germany.

Mr. Dornblaser, speaking on behalf of most members of his church and of the majority of Americans of German blood, yesterday declared the meeting will demonstrate that American ideals are uppermost among his people, who have not been impregnated with the doctrines which Prof. Mosher will describe.

"German born citizens of the United States," he said, "will not repudiate the acts of such men as Carl Schurz, Gen. Kemper of the union army, Gen. Custer, the Pennypackers of Pennsylvania, who sent sixty-four men to the defense of the union, and others of similar ilk. There are thousands of our boys in the army and navy, to the fall as patriotic as any others."

Claims Understanding with Allies. LONDON, March 2.—In his speech at Tokyo Feb. 24, in reply to interpellations of representatives, Viscount Motono, the Japanese foreign minister, is reported by Reuter's Tokyo correspondent as saying that some discrepancies were to be found in the various reports of the Russo-German peace negotiations. It was therefore difficult at that time, he pointed out, to form a definite idea concerning the actual conclusion of peace by the two countries.

"Should peace be actually concluded," he continued, "it goes without saying that Japan will take steps of the most decided, most adequate character to meet the occasion. The withdrawal of Ambassador Uchida from Petrograd is due to the unsettled and dangerous conditions prevailing there. It does not mean a rupture with Russia."

Regarding the question of Russia's separate peace, the fullest understanding exists with Great Britain, America, and the other allies. The consul general at Moscow will represent Japan after Ambassador Uchida's withdrawal.

"Will Act Energetically." ROME, Saturday, March 2.—The government at Tokyo will act energetically, but it is impossible to say in what way, it not being desired to have the enemy know anything of its plans.

Gen. Semba of the Japanese army is quoted here as declaring in an interview regarding the situation in the far east. "The attitude, continued the general, depends upon the enemy's action—whether the Germans enter Petrograd and, should they do so, whether they will stop there or invade, even without military action, the remainder of eastern Russia under the pretext of reestablishing order and organizing supplies, and thus reach Siberia. Japan, the general declared, was ready for any eventually."

1,000 RUSS HERE OPPOSE JAPAN'S MOVE IN SIBERIA

A resolution protesting against the invasion of Siberia by Japanese and Chinese troops was adopted by more than one thousand Russians who attended a mass meeting in the West Side auditorium, Taylor street and Racine avenue, yesterday afternoon.

The resolution denounces the invasion as an excuse on the part of Japan to cover up her imperialistic aim toward the annexation of Siberia and to smother the movement for liberty in Russia. Copies of the resolution were wired to the Japanese and Chinese ambassadors at Washington and to President Wilson.

A resolution protesting against the "illegal" drafting of Russians who are not citizens and who have only taken out their first papers and against the arrest of Russians who seek to evade the draft because of religious convictions also was adopted.

Thirteen delegates sent by Chicago Russian societies to the convention of Russian organizations at New York on Feb. 14 made reports. It was announced that the first meeting of the Russian Workers' council of Chicago will be held on March 16.

Resolutions adopted at the New York convention repudiating the representatives in this country of the Kerensky government and offering support to the present government were ratified by the mass meeting.

GERMAN POLICY IS RIDICULED IN REICHSTAG

Socialist Member Points Out Insincerity of Junkerdom.

AMSTERDAM, March 2.—The Vorwarts of Berlin, in reporting the address made by Socialist Deputy Vogther, quotes the deputy as follows: "The imperial chancellor said Belgium must not again be the jumping off ground for our enemies, but even before the war this was its position and it was only upset by the injustice which Germany committed in her violation of Belgium neutrality. How then shall guarantees be given in the future treaties if, as against treaties, the rule recognized is that necessity knows no law?"

"Mr. Balfour has clearly stated what people abroad expect of us. But no chancellor has yet uttered clear and unequivocal renunciation regarding Belgium."

Herr Vogther was interrupted with "Very true" from Independent Socialists.

Herr Vogther continued: "Imperial Vice Chancellor von Payer is only a wheel in the machinery. Our government is entirely dependent on the steering gear which still lies wholly in the hands of junkerdom. No help can reach the people until it finally sweeps away its tormentors and takes its fate into its own hands."

Reuter's Report of Speech.

LONDON, Saturday, March 2.—The German government's "infamous war policy" was assailed in the reichstag in the course of Friday's debate by Herr Vogther, an Independent Socialist, according to Berlin advices sent from Amsterdam by the Reuter correspondent there.

"The German ultimatum is not calculated to create conditions of peace and friendship with Russia," Herr Vogther declared. "In the case of the Ukraine peace, Germany and Austria already are quarreling over the booty. The war we now are waging in defenseless Russia serves only the properties of the classes of the disputed territory. In Lithuania we have made no moral conquests. The Lithuanians long to be back in Russia."

Says Truth Is Hidden.

"We are not allowed to know the truth. The fatherland party is pursuing a blood thirsty propaganda against foreign countries. We are sold body and soul to the military caste. We are pursuing an infamous war policy."

At this point the vice president called the speaker to order, but he insisted on continuing his speech. After another interruption the deputy accused an admiral and a commandant at Swinemunde of appropriating confiscated foodstuffs, adding: "We must abolish the whole of this Michaelis-Capelle management. The Dittmann case (Dittmann was a Radical Socialist member of the reichstag accused in connection with the German naval mutiny) ought to give the reichstag cause for reflection. A general who runs wild can, by arresting obnoxious representatives of the people, decimate the reichstag."

TAKE HOT DRINKS TO MEN FIGHTING IN FRONT LINES

Red Cross Workers to Extend Service to Americans.

Washington, D. C., March 2.—[Special.]—The war council of the American Red Cross announced today that arrangements have been completed to serve hot drinks to American troops in the front line trenches. During the last six months the Red Cross has served more than 1,000,000 French soldiers in this manner and given them a friendly boost.

A cablegram announced by the Red Cross says: "The work has proved itself to be of such value to the French that the French army has asked the Red Cross to have this service directly in touch with the medical relief stations nearest the front."

"The work is often done under heavy shell fire and requires men of great bravery and sympathy. Eugene Hale, brother of Senator Hale, finishing six months without vacation with a rolling canteen near Verdun, served thousands of French troops, gained great commendation from French generals who noticed the character of his work."

THE WAR MOTHER

Gen. Bell Pays Tribute to Woman Who Has Given Her Four Sons to Her Country.

MIAMI, Fla., March 2.—[Special.]—Mrs. W. A. Read of Purchase, N. Y., whose son, Curtis, killed recently in action, today gave out a letter she had received from Maj. Gen. Bell, which says in part: "You will doubtless recall our chance encounter at a military equipment store, where your son was securing apparel for use in the aviation corps of the navy, your casual mention of another son in the same service, and my expression of surprise that you had given two sons to such hazardous duty. Thereupon you quickly remarked that you had given four, all you had. The calm resignation and satisfaction of duty done so pathetically manifest in your face and manner moved me profoundly and I went straightway to secure a four starred service flag to lay at your feet."

"I found that more than three starred flags were not kept ready made, and I had to order one especially made, which I am sending to you here with. Won't you accept this small tribute to the spirit of self-sacrifice and patriotic devotion with which a noble mother has thus answered the call of her country?"

"Were every mother equal to meeting such calls with the same spirit there could never be the slightest doubt about the safety of democracy."

In making public Gen. Bell's letter Mrs. Read said:

"It is with the feeling that when the time arrives, as it now has, for America to share the anguish and glory of the allies, such an utterance from one of our war trained leaders belongs to all mothers of the men who so superbly and gladly give their lives to the great cause in which our beloved country is enlisted."

KITCHIN'S TIP-TO SENATE: CUTTALK ADJOURN IN JULY

House Leader Desires Speed on the War Program.

Washington, D. C., March 2.—[Special.]—Representative Kitchen, leader of the house, believes if talk in the senate can be reduced to a minimum, congress will complete the administrative legislative program and be ready to adjourn by July 1.

He said today that signs for quick work in the senate are promising. He pointed out that the cabinet bill was put through the senate in less than half the time it usually takes to get action on important measures.

and Senator Simmons has proposed that the war finance corporation bill will pass on Monday or Tuesday. Senators and representatives who are handling the big bills believe that summer adjournment can be attained unless a new revenue bill called for increased taxation is demanded by president and Secretary McAdoo.

Leaders have been informed that the treasury department probably will ask for new revenue legislation this session.

DEDICATING THE BIG TABERNACLE WHERE BILLY SUNDAY WILL STRAFE THE DEVIL

A View of the Interior of the Great Auditorium, Crowded Yesterday for the Dedicatory Program.

MAIL SUNDAY AS MAN OF GOD AND PURE AMERICAN

Revival Will Be Felt for Fifty Years, Prophecy at Dedication.

BY THE REV. W. B. NORTON.

Billy Sunday, man of God and pure American, was hailed yesterday as the leader who can bring to Chicago a revival which will be felt for fifty years. His praise was uttered at the dedication of the big tabernacle, Chicago avenue and the lake shore, by speakers representing church and state, differing in many articles of their creed but united in the one conviction that a revival of religion and patriotism was needed and Billy Sunday was the man for the job.

Message from Washington.

Washington and Chicago shook hands by an exchange of telegrams. The message from the meeting in Washington, which closed last evening, and was read to the audience by the Rev. Dr. Thomas, pastor of the Episcopal church, who is chairman of the Chicago Sunday evangelistic campaign committee and presided at the dedication.

London Sends Regrets.

London also announced he had received a telegram from Gov. Leavenworth, expressing regret at his inability to be present. "I should like to have been with you," the telegram read.

Patriotism Extolled.

The widest burst of enthusiasm was when the Rev. Frank W. Gunsberg, pastor of Central church, expressed Billy Sunday's patriotism. "I am a collector of antiques, and, if I had money enough, I would go to Europe and collect a few crowns," he said. "They never were so cheap as now. Today, I am an orthodox revivalist, but I would rather have any of Woodrow Wilson's than any of the others."

DÉDICATION

Responsive Service Read at Great Sunday Tabernacle.

RESPONSIVE service, read by the Rev. W. B. Millard as leader, and the vast throng which filled the Billy Sunday tabernacle yesterday formally dedicated the building to the revival services. The responsive reading was as follows:

Leader—As an inspiration to make our little city a veritable city of God.

Response—We dedicate this tabernacle.

Leader—For the rebuilding of broken homes and neglected family altars.

Response—We dedicate this tabernacle.

Leader—For the reestablishment of broken faiths and the payment of forgotten vows.

Response—We dedicate this tabernacle.

Leader—For the mending of broken hearts and the healing of shattered lives.

Response—We dedicate this tabernacle.

Leader—For the encouragement of everything wholesome uplifting and righteous.

Response—We dedicate this tabernacle.

Leader—For the inspiration of the young, for the strengthening of those who bear the tug and strain of middle years, and for the heartening of the aged.

Response—We dedicate this tabernacle.

Leader—For the destruction of evil in places high and low.

Response—We dedicate this tabernacle.

Leader—For the winning of the lost through the power of a crucified and risen Redeemer.

Response—We dedicate this tabernacle.

Leader—For the honor of Jehovah God, who through the centuries has led His people in love.

Response—We dedicate this tabernacle.

Leader—For the honor of Jesus Christ, only begotten Son of the Father, despised and rejected often, and yet today the supreme Lord and only Savior of men.

Response—We dedicate this tabernacle.

Leader—For the honor of the Holy Spirit, revealing the light and life and love of Father and Son, and bringing the mind of the Master to our remembrance.

Response—We dedicate this tabernacle.

Leader—For the glory of God the Father, God the Son, and God the Holy Spirit.

Response—We dedicate this tabernacle.

divine man, Jesus Christ, to the superman of Goethe.

"When our boys come back from France we want them to come to a safe city. They will come after they have won a victorious peace with the white, which stands for purity; the red, for valor, and the blue, for justice."

Bishop Thomas Nicholson, bishop of the Chicago area of the Methodist Episcopal church, said Mr. Sunday's work could be heartily endorsed even if one did not agree with all he said or did.

"I know in advance I will not approve of all Mr. Sunday does nor of all his theology," he said, "but I believe Billy Sunday is the greatest prophet of the Christian church in my generation."

Dr. John Timothy Stone, pastor of the Fourth Presbyterian church, had committed to him the task of asking the people for the offering to pay the expenses of the tabernacle and the

campaign aside from the offering for Mr. Sunday which is to be given to the Pacific Garden mission and which will be taken the last week of the campaign. Dr. Stone said \$34,000 had already been paid or subscribed. He appealed for enough to bring the sum to \$85,000 as the amount immediately needed. Dr. Stone commended the newspapers for their cooperation, saying, "The press has shown itself worthy of the confidence the leaders have taken in it."

Dr. James E. Walker, Mr. Sunday's personal representative, gave an account of the movement to bring Mr. Sunday to Chicago.

The chorus choir of 2,000 was led by E. O. Sellers. The scripture lesson was read by the Rev. C. G. Kindred, pastor of the Englewood Christian church. Prayer was offered by the Rev. Judson B. Thomas, pastor of the First Baptist church, Austin, and the dedicatory prayer was by the Rev. Johnston Myers.

putting on in an effort to discredit the famous evangelist.

"We haven't needed to advertise," he asserted. "The enemy has spent more advertising us than we have advertising ourselves."

The small dishpans which Sunday uses for collection boxes, and which adorn the end seat of every aisle, were passed to secure money to finance the expenses of Sunday's campaign, and the coins rattled merrily therein.

Belgian Parliament to Hold Session in Paris

PARIS, March 3.—A meeting of all the Belgian senators and deputies residing in France, England, and Holland will be held in Paris this month, according to the Figaro. The assembly will have an official character, it is stated, and all the Belgian ministers at Havre will attend. Resolutions will be adopted to be presented to King Albert for ratification. This is the first time an attempt has been made to hold a general meeting of the Belgian parliament since the fall of Antwerp.

Switzerland's Frontier Closed; Food Supply Low

GENEVA, Switzerland, March 3.—[Delayed.]—By the closing of her frontiers at midnight, Switzerland again finds herself completely isolated in Europe. Meanwhile, the food question, especially as it relates to bread, is becoming more critical daily. The reserve stocks of wheat, even if the present small ration is still further reduced, will be exhausted within the next six or seven weeks.

OVERSEAS CASUALTIES

PSYCHOPATHIC REPORT SHOWS CITY NOT SO BAD

Billy Sunday's accusation that Chicago is the wickedest city in the United States will be refuted by cold scientific facts in the first comprehensive report of the investigation of the municipal psychopathic laboratory compiled by Dr. William J. Hickson, which will be issued next Saturday.

The report covers the three years which the laboratory has been in existence, and shows, according to Dr. Hickson yesterday, that the ratio of defectives and the sum total of crime committed in Chicago is no larger than in any other American city in proportion to population.

A summary of the report, which embraces 34,000 words, is as follows:

"The percentage of defectives per thousand of population is fixed. Four per cent of all children are abnormal and 2 per cent of these are extreme cases."

"Of the 4,500 cases examined in the Chicago psychopathic laboratory 35 per cent have been committed to insane asylums."

"Dementia praecox prevails in exactly the same ratio in the Morale court, the Boys' court, the Court of Domestic Relations, and the Criminal court."

"No fundamental crimes such as burglary, holdups, assaults, etc., are committed by normals. The sanely intelligent man may violate statutory laws, but he cannot properly be classed as degenerate."

"Environment has nothing to do with fundamental crime."

The report attacks the Illinois parole law and shows that crime can never be controlled as long as practically the same number of the criminally inclined are released every week as are sent to confinement.

U. S. PERFECTS SPECIAL BULLET FOR AIRPLANES

Washington, D. C., March 3.—[Special.]—The United States ordnance department has developed a class of special small arms ammunition for armor piercing, tracing, and incendiary purposes fully equal to or surpassing similar missiles of the allies.

These special cartridges are a development of the world war, brought forth for use in airplanes. As the war progressed the more vital parts of airplanes were protected by light armor. Consequently, it became necessary to produce the armor piercing bullet.

The gasoline tanks are particularly susceptible to incendiary missiles. In order to enable flying men to correct their range the tracer bullet was evolved. This flies through the air as a bright spark, plainly visible.

All of the special cartridges are of the small rifle calibers, .30 or thereabouts. They are three-tenths of an inch in diameter and short, but combinations of armor piercing and tracer and armor piercing and incendiary bullets have been successfully made.

German Prisoner Fears

to fight but had to. The officers quickly changed the German's viewpoint by informing him that all of the troops in the trenches were volunteers.

One prisoner, whose home is in German Lorraine, said he thought the fatherland would lose the war, but he hoped not. He knew nothing about the Americans except that they were in the war, the German newspapers not printing much upon the subject, he said, and being slow in reaching the front lines because of mail congestion.

Peace Cause Strikes.

This prisoner said he was convinced that the recent strikes in Germany were caused by a desire for peace, adding that all Germany wanted was to end the war. He was certain that an offensive was coming, but did not believe it would be launched before April 1.

None of the prisoners had seen any German tanks, they said. All of them added they were glad to have been taken prisoner, especially by the Americans, because they believed they would be well treated.

The prisoners' accounts showed that the sector opposite the American position was commanded by Gen. Stalman.

Praise Here Comrades.

The correspondent talked with a dozen of the American wounded in their hospital cots. Every one of them was anxious to tell of some deed of heroism or other performed by his fellows, but displayed great modesty regarding his own exploits. One youth, whose home is near Savannah, Ga., and who looked to be not more than 18 years old, told this story:

"I was in the front line when it seemed like every shell in the world started coming our way. Where the Germans got them is more than I know. I never believed that many could know. One burst near where I was.

"A piece hit a fellow on the other side of me who came from Texas. The corporal picked him up in his arms and started with him for a first aid station in the midst of a perfect shower of dirt and mud which was being kicked up. I don't know whether he ever got there or not.

"By that time I got into a machine gun emplacement with another corporal, whose home is in Missouri, leaving my rifle outside. Things got so hot we decided to try to get to a steel shelter at the end of a trench.

"The corporal went first, but a few feet away a shell exploded almost on him and killed him. I stepped out and saw that my rifle had been blown to pieces. This left me defenseless, so I started in another direction, hoping to find a rifle or a pistol, because I knew the Germans would be around soon. About the same time a piece of shell hit me on the left side, and down I went. A sergeant yelled an order for me to go to a first aid station.

Station Wiped Out.

"I was just approaching the station in the rear of two stretchers bearing teams who were proceeding bent over,

OFFICIAL REPORTS ON ALL WAR FRONTS

FRENCH FRONT

PARIS, March 2.—[Delayed.]—The artillery battle reported yesterday at several points on the French front from the Chemin des Dames to the Meuse continued all night with marked intensity, accompanied by very lively infantry action, in the course of which the French troops retained the advantage.

Enemy raids on small French posts southeast of Barleux and south of Jurincourt were repulsed.

The aggressive enemy action manifested itself notably in the region northwest and southeast of Reims until the end of the day. German troops attempted to debouch from the salient of Neufchateau. The French fire, directed with precision, disorganized the attack. Portions of German detachments which succeeded in penetrating French advanced positions were driven out by French counterattacks. At the same time (5:40 p. m.) enemy detachments attempted to approach the French lines before La Pompe, but under the French fire were forced to return precipitately to the trenches they had left there.

After this first repulse the enemy launched a new and more violent attack in the same region. In spite of his repeated efforts he was unable to reach the fort of La Pompe. A few enemy elements succeeded in gaining a foothold north of a small work situated to the west of the fort. At the same time an enemy attack more to the east, south of La Bretonnerie, obtained no result.

In the Champagne the enemy attacked the French lines at two points without obtaining the slightest success. Near Carillet an attack delivered on a front of 800 yards found the French trenches evacuated under orders. Energetically returning to the trenches, French troops drove back the enemy and reestablished the French position.

East of the Teton a German attack was checked under our fire. Southwest of the Butte plus Meuse there was a violent bombardment all night. During these actions the French inflicted serious losses upon the enemy and took a number of prisoners.

On the left bank of the Meuse there was local artillery activity, which was quite lively in the Hancourt sector. On the right bank, in the region of

to escape, if possible, the flying pieces of shell, when a shell plumped down on top of the station, exploded, and blew it out. A piece of rock hit me in the head. When I woke up some stretcher bearers had me, hauling me over the shell holes.

"I've sure got to hand it to those men with the red cross on their arms. They all worked like dogs in that hell out there. They seemed to have but one idea—to do their duty—and apparently cared nothing for their own lives while doing it. They were game right to the core."

In this connection it may be said that there are a certain number of men who wear the red cross whose names are on the casualty list.

Gun Pits Catch It.

An artillery man from New Jersey described what happened in the gun pits.

"I was asleep in the dugout when the fun began," he said. "We ran out to the gun. The shells were raining down all around. Then came the order for a barrage and we let them have it. One shell hit near the pit and loosened the logs overhead. After that every time we fired the concussion brought down one or two logs. Myd, stencils and pieces of shell came in at the front. Five spokes were knocked from one wheel of the carriage and the gun muzzle was nicked. Two or three men were slightly hit and laid away at the end of the pit, while the rest of us kept on firing.

"Suddenly a piece of steel came through the gun shield which I was behind and hit me on the shoulder. About that time we were all carried to the dressing station, and here I am. I don't mind this wound, but I

Vaux les Palameux, French patrols took prisoners.

Two enemy raids in Lorraine and in the Vosges, south of Fave, were completely checked.

In the neighborhood of Reims and in Champagne the enemy artillery displayed only feeble activity during the course of today. Our troops have completely reestablished their lines at La Pompe. The German attack directed against this point last night was carried out by two battalions.

The cannonading was spirited on the right bank of the Meuse, at Hill 344, and north of Besonvaux. It was intermittent on the rest of the front.

BRITISH

LONDON, March 3.—We carried out a successful raid last night against the enemy's trenches southeast of Arras. Hostile raids were repulsed before reaching our lines north-west of St. Quentin and east of Arleux. En Gohelle. A third party of the enemy attempted to raid our trenches in the neighborhood of Pontru (St. Quentin region), but was met by our patrols and suffered considerable casualties in hand to hand fighting. We captured a few prisoners in these various encounters.

The enemy's artillery was active yesterday evening against our position west of Lens.

We captured a few prisoners last night in a patrol encounter northeast of Polygon wood. There is nothing of special interest today.

GERMAN

BERLIN, via London, March 3.—Western front: Front of Crown Prince Rupprecht—Southwest of Lombard-sur-Saale we captured a number of Belgian prisoners. Brandenburg storming troops as a result of a thrust near Neuve Chapelle brought back sixty-six German prisoners, including three officers.

Front of the German crown prince—After several hours of artillery preparation, French companies attacked our positions near Corbeny during the evening.

We were repelled by means of a counter thrust. In the Champagne fighting activity revived on the sectors where fighting took place on Friday.

ITALIAN FRONT

AUSTRIAN.

VIENNA, via London, March 3.—

Heavy snowfalls in the mountains along the Italian front have prevented military activity since yesterday afternoon.

ITALIAN

ROME, March 3.—On the left side of the Frenza valley an enemy infantry attack, well supported by artillery fire, failed completely under our barrage. On the rest of the front the opposing artillery developed the usual harassing actions, with our artillery fire very spirited on the Asiago plateau.

The enemy was more insistent along the Piave river below Sandona. Adverse atmospheric conditions the last few days have prevented aerial activity.

RUSSIAN FRONT

AUSTRIA

VIENNA, March 3.—In Podolia the Austro-Hungarian advance troops occupied Zmerinka after a short engagement. When Gorodek was captured a corps of Siberian troops surrendered. An infantry detachment also was captured.

When Chotin and Kamenets-Podolsk (capital of the government of Podolia) were occupied the staffs of two Russian corps and three infantry divisions surrendered. Up to the present about 200 guns, large quantities of munitions, and other war materials have fallen into our hands.

ROUMANIAN FRONT

AUSTRIA

VIENNA, March 3.—The armistice with Roumania came to an end yesterday. The Roumanian government declared itself ready to enter upon a formal armistice preparatory to negotiations in connection with peace parleys on the basis of conditions fixed by the central powers.

MACEDONIAN FRONT

FRENCH

PARIS, March 3.—Southwest of Seres a Bulgarian reconnaissance was repulsed by British troops. In the region of Monastir the artillery actions were intermittent. Allied aviators bombed enemy depots west of Petric and the railway station at Pavlova, in the Vardar valley.

Allied Seaplanes Bomb Ostend and Score Hits

LONDON, March 3.—The British admiralty announces: "Naval aircraft have bombed seaplane sheds at Ostend from a low altitude. A number of bombs were observed to reach their objectives."

A Kansas man who was in the fight said the last he saw of the lieutenant was kneeling alongside a spitting machine gun and blazing away at the Germans with his own automatic pistol. "I saw him fall flat," added the private.

The lieutenant was killed by a gunshot wound in the chest.

All the American dead now have been buried in a little graveyard a few hundred yards from the spot where they fell. The German bodies also have been collected and buried near by.

Another German version of the raid on the American trenches is given in a dispatch from Amsterdam. The report says:

"Northeast of Selchepey our storm troops gained a complete success against the Americans. After a brief strong preparatory fire our troops here penetrated the enemy's position to a depth of 500 meters. They rapidly broke the American resistance, returning with twelve prisoners and two machine guns.

"The losses of the Americans were extraordinarily high in the brief preparatory bombardment."

CLAD IN KHAKI, K. OF C.'S GIVEN FOURTH DEGREE

Half of a Large Class Is
in Service of
Nation.

The annual exemplification of the fourth degree was given yesterday by the Illinois Assembly of the Knights of Columbus at the Hotel La Salle. An unusually large class was imbued with a military zeal, for one-half of the 460 members who took the degree were khaki. John A. McCormick, vice president of the Chicago Trust and Savings bank, and master of the fourth degree, presided.

A rousing talk by Quin O'Brien, featured the banquet in the evening. Some 1,700 in attendance were stirred to patriotic fervor.

"God kept America hidden in the ocean for centuries," said the speaker, "and preserved it to be the home of liberty while man was struggling abroad against the divine right of kings. In the latter part of the 18th century he lifted the veil of mystery and revealed, through his servant, Columbus, his instrument to save the old nations of the earth."

Mr. O'Brien has been invited by the Knights of Columbus supreme board of war activities to go abroad and study conditions. He will leave some time next month.

Leroy Hackett, state deputy of Illinois, declared that the total amount paid into the K. C. was \$34,498,000. The goal sought after, which was originally \$30,000,000, has been raised to \$7,500,000.

Tells Why Invasion of Belgium Was Flagrant

Prof. Hugh Black of Union Theological seminary, New York, spoke at a community service in the First Methodist Episcopal church, Evanston.

"One of the reasons the invasion of Belgium by Germany was so flagrant," he said, "is because Belgium was not simply a neutral country, but a neutralized country, and that, too, in the interests of Germany."

"The German methods of warfare are the direct logical results of her philosophy. I would rather have the British Isles sink in the depths of the sea than to have Great Britain sink to the level of Germany's method of warfare."

WOULD CONVERT GERMANS AS STEP TO WORLD PEACE

"I believe in the conversion of Germany—of the German people," said Prof. Theodore G. Soares of the University of Chicago in an address last night before the Sunday Evening club at Orchestra hall on "The New Internationalism."

"I can't say that my faith is strong in the conversion of the Prussian military autocracy. Still, everything is possible with God."

Human nature is immutable, he asserted, and had not changed "since that day when King David placed the captured Moabites on the ground in parallel rows and slaughtered every third row. But human sentiment has changed. I don't believe man is to be transformed into a plaster saint, but changes have taken place in his viewpoint."

Today there are words on the lips of the world's statesmen which formerly were uttered only by poets and dreamers.

The world is determined that this will be the last war, he added.

GENERAL STRIKE VOTED DOWN BY CHICAGO LABOR

Active Protest Against Mooney Hanging Suggested, but Fails.

Convenient to urge a general strike throughout the United States as a protest against the hanging of Thomas J. Mooney, under death sentence in California, was set upon with firmness yesterday by the Chicago Federation of Labor after considerable heated argument.

A telegram from California had been read telling of the state Supreme court's action in refusing a new trial for Mooney, who was convicted of responsibility for a bomb explosion which killed ten persons in San Francisco in 1914, and urging labor to protest as a whole. Secretary E. N. Rockwell, who had been wired to Gov. Stephens of California.

Moves General Strike. Emil Arnold, former editor of the Abendpost, jumped to his feet and, in a German accent, said:

"I offer as an amendment that the Chicago Federation of Labor request the union men to declare a general strike throughout the country as a protest against the hanging of Mooney."

The proposal found favor with a number and these noisily expressed approval, but after the wiser heads had shown the utter folly of the thing the "radicals" desisted and the amendment was voted down.

His Fourteen Reasons. "I have fourteen reasons for opposing the amendment," said Delegate William McPherson. "I have fourteen nephews in the trenches in France, and a letter I received from two of them last week they begged me to use every influence I could to get more Yanks to France. I ask you, how are we going to get them there to help out the thousands who are already there if we go on a general strike? Our duty now is to keep on with the work we have started, not to tie the hands of the government with a general strike."

He would be a scoundrel, a traitor, if I engaged in anything like that at this time."

Says He Hates Kaiser. "If there is any man here that hates the Kaiser worse than I do, let him stand up!" he exclaimed. "I have no use for him. I hate the Kaiser. If a strike was here and I pulling it would kill the Kaiser, I would be the first one to pull it."

Delegate Christian M. Madsen, former state representative, said: "All that can be done has been done. The president sent a special commission to California and he has asked the governor for a new trial for Mooney. If the capitalists of California have a greater power than President Wilson and the working people of this country I say let them go to it. If by placing my own neck in the noose that is to hang Mooney I could accomplish as much for the working people as Mooney will accomplish I would gladly put it there. Tom Mooney, dead, will do more for the cause of the working man of this country than Tom Mooney alive could do, even if he lived a thousand years."

Amendment is Adopted. Morton L. Johnson offered an amendment to the amendment, which was that the officials of the American Federation of Labor be wired to for advice as to how to proceed in the Mooney matter, and this was carried. Arnold was on the floor three times, the second time urging labor to show what it could do.

"If you don't," he said, "you are nothing but a lot of cowards."

Prior to the Mooney discussion the federation was addressed on industrial conditions in England by W. A. Appleton, general secretary of the Federation of Trades Unions of Great Britain, and Joshua Butterworth, secretary of the Shipwrights' union of Great Britain.

"My heart sings within me," Mr. Appleton said, "when I see the sort of men you are sending over; men who will fight with their brains as well as with their hands. I feel that the soul of America is awake and that it will not only smash Potsdam and what Potsdam stands for, but will bring together all the democratic forces of the world."

GOETHALS BEGINS ARMY UNIFORM WEIGHT INQUIRY

Believe Pershing Asked That Cloth Be Made Heavier.

(BY A STAFF CORRESPONDENT.) Washington, D. C., March 3.—[Special.]—With the disclosure today that Quartermaster General Goethals has created a board to make a special study of the character and weight of cloth now being used for army uniforms, it was reported the action was based on a suggestion from Gen. Pershing that the weight of the uniform for service abroad should be increased.

The war department, at the request of the senate committee on military affairs, asked Gen. Pershing several weeks ago for his opinion of the serviceability of the standard cloth now being used. This request was prompted by testimony from experts that the uniform is too light for European service.

Inquiry Starts March 7. Gen. Goethals has summoned experts to meet in Washington March 7 to undertake the inquiry. On the board are Herbert E. Peabody, president of the American Woolen association; Frederick S. Clark, president of the Tailor mills of Massachusetts; Charles Wilson of Pittsfield, Mass.; George H. Hodgson, vice president of the Cleveland Worsted mills; Stephen O. Metcalf, treasurer of the Wamsutter company of Providence, R. I.; Jacob H. Brown of Brown & Adams, Boston; and Col. H. J. Hirsch, quartermaster department.

Statement by Eisenman. Charles Eisenman, vice chairman of the committee on supplies, Council of National Defense, who clashed with the senate committee on this subject, returned to Washington today. Eisenman issued another defense of the American uniform.

"Of the more than 30,000,000 yards of cloth bought by the committee on supplies since last May, every yard has consisted of 100 per cent virgin wool, with no cotton, no wool substitutes, no shoddy," Eisenman said. "Prior to the entrance of the committee on supplies into the government purchasing system the specifications for uniform cloth were as follows:

"Seventy-five per cent virgin wool and 25 per cent cotton. The standard weight for uniform cloth for the army has always been sixteen ounces to the yard, and is now that, and all of the goods purchased by the committee on supplies has likewise been sixteen ounces to the yard."

Asked Ruling by Sharpe. "Owing to information received that English uniform cloth was twenty ounces to the yard, the supplies committee has frequently sought to obtain a ruling from Gen. Sharpe of the quartermaster department as to whether the weight of the cloth should be increased. Gen. Sharpe cabled Gen. Pershing about four months ago inquiring if in Gen. Pershing's judgment our weights were sufficient, but to date the supplies committee has received no information on the point."

Statements have been made that the uniforms of American soldiers have been cheapened. The facts are that they have been made far better and stronger.

SOCIETY WRONG, BUT SAUER HAS LEARNED LESSON

"It's all wrong," according to William L. Sauer, "society boot maker," whose objections to the draft landed him in the bridewell, with one year to serve. It is society that is "all wrong" in condemning him for trying to evade the draft. Nevertheless, Sauer has concluded, after a taste of the bridewell, that he is willing to join the army.

"I have resolved to do as the government directs," he told the city council subcommittee on crime, which is investigating the bridewell. "My feeling towards the draft is one impelled by my conscience. Society is wrong in condemning me."

Although Sauer's business is that of a manufacturing shoemaker, when he was assigned to that task at the bridewell it was found he knew nothing about it. "I always took the measurements, but some one else made the shoes," explained the bootmaker.

TAKES WRONG DRUG; DIES. Vernon Joseph of 44 West Chicago avenue, owner of a restaurant at 130 West Chicago avenue, died yesterday morning in his home as the result of having swallowed a quantity of poison, which he mistook for a powder prescribed by a physician for a stomach ailment.

ENGINE BLOWS UP; FOUR HURT. Decatur, Ill., March 3.—A Wabash freight engine blew up early today near Carro Gordo. Engineer Ebelman was blown about twenty feet, but escaped with slight injuries. Chicago Citizens! It's Up to You!!

The Great Destroyer, is to be before you for trial. You will be asked to decide whether you will support or continue hand in glove with the most destructive agency the world has ever known.

You will say whether or not the long and short of the saloon shall continue to be a source of crime, corruption, poverty, crime, support vice, demoralize, lawlessness and viciousness.

You will have it in your power to remove the most powerful and can't be removed influence for evil that Chicago has to contend with—to remove the cause and cause of three-quarters of the poverty, distress, business inactivity, lawlessness and viciousness of the community.

The issue is in your hands. It is up to you. By registering on March 12th and voting DRY on April 2nd you will make untold benefits on this great city and directly or indirectly upon your family and yourself. What are you going to do about it?

Get These Facts.

The saloon stands for everything that is bad. It hasn't a single redeeming feature. There isn't a sound, honest argument that can be made in its favor. It is a veritable pariah—an outcast and indefensible institution.

When the old city about the revenue the saloon pays the city in the form of license fees—and that hoary old argument "personal liberty"—and that prohibition doesn't prohibit. No thinking man should be misled or deceived by these stupid arguments.

Naturally the liquor interests are not going to give up without a struggle. They are in a highly profitable industry—and despite the fact that it comes at the expense of blood, tears, dishonesty and decency—they defend themselves with what poor, ridiculous reasons are available.

The real facts are disconcerting. They aren't very elastic and they can't be argued around to prove that the saloon is true—that wrong is right. The saloon is the facts—not guesses, speculations, or rumors—but FACTS.

Chicago's Drink Bill.

Chicago spends \$140,000,000 a year in its bars. Think of it! Almost \$140,000,000 each week. This huge sum doesn't buy food, fuel, parks, playgrounds or libraries. It doesn't buy anything good or even slightly beneficial. It buys alcohol.

Chicago's annual drink bill would build 55 Municipal Piers. It would put swimming pools in every ward. It would erect 35,000 working men's homes. Divert this immense amount of money to legitimate and constructive purposes and you can't avoid a mental stimulation in all other trades.

The Great Destroyer.

The saloon causes between 65% and 80% of the crime of Chicago. It is responsible for 50% of the poverty and at least 85% of the insanity. Twenty out of every three cases of broken up homes—40%—which have been brought to the attention of the Social Service Department of Cook County and the cause are due to the saloon.

In order to keep going, the saloons have created 1,600 new drinkers per year—1,600 boys and girls sacrificed each year on the altar of Rum.

The South Side Club, in a study of the saloon, found in 24 hours 14,602 men in 24 back rooms of Chicago saloons. It found further that 451 out of 478 saloons investigated contribute in one way or another to the demoralization of women and girls.

Now, citizens of Chicago, these are the facts and an ugly lot of facts they are. If this situation doesn't need an immediate and thorough cleaning up then nothing ever needed it. And if you don't turn out April 2nd and stamp out the most foul, poisonous traffic, you will be tacitly putting your stamp of approval on it. That you will fail to crush the Monster is unthinkable.

The "Personal Liberty" Ruse.

You are not asked to forego anything for the saloon. If you are not a customer of the saloon, don't think you're concerned. You ARE concerned with anything that so vitally affects the welfare of the community. "Personal liberty" is and always must be restricted by law. While you may claim the right to drink what you like, it does not follow that you may SELL what you like.

Archbishop Ireland Says—

"The great cause of crime is drink, the great cause of poverty is drink. When I hear of a family broken up and the cause—it is drink. If I go to the saloon and ask the victim the cause, the answer is—drink. Then I ask myself in perfect wonderment, why do men not put a stop to this thing?"

Major Gen'l Frederick Grant Says—

"Twenty-five per cent of the desertion and acts of lawlessness in the army are due to liquor. If I could, by saving my body as a sacrifice, free my country from this fell destroyer—I would thank God for the privilege of doing it."

Theodore Roosevelt Says—

"Let us use all the grain we have for food and for the manufacture of intoxicating liquors."

Major Dahman, of Omaha, Says—

"Prohibition has not hurt Omaha; it has helped it. It has helped the honest people who are able to buy more and collect more from saloons is ruined. There are no unemployed; there is plenty of work. The brewers are making soft drinks and other things and are employing as many people as before. I used to think prohibition would be a bad thing but it has turned out that way."

Help Us Win!

Let us win this fight to clean up Chicago. Liquor knows no scruples and, backed by big funds and many salaried workers, it will stop at nothing to defeat this measure.

You can do something. If you are willing to do your bit, write, phone or visit our headquarters. Let us get to work now—AT ONCE!

VOTE DRY APRIL 2ND
WIPE OUT THE SALOON

Vote Chicago Dry April 2

The law provides that the saloon question must be put on the ballot, if a petition, signed by 25% of the registered voters voting at the last general election, is filed with the Election Commissioners.

According to the returns of the last election, this required a petition signed by 106,427 voters.

The Dry Chicago Federation filed with the Election Commissioners on Jan. 31, 1918, a petition signed by 150,018 registered voters—the largest petition ever filed with an election board in the history of the United States.

The Election Commission is: Honorable Thomas F. Scully, Judge; August Lueders, Chairman; Bernard Horwich and Frank X. Rydzewski, Commissioners; Dennis J. Egan, Chief Clerk; Colin C. H. Fyffe, Attorney.

Whatever the personal attitude of the commissioners, they have no alternative but to proceed according to law, place the question on the ballot and have it decided by a majority vote.

This gives the majority the right to say whether the saloons shall be closed or not. And the majority verdict should be satisfactory to the minority. *A fair field and a fair fight.*

RELAY CARNIVAL SHOWS STRENGTH OF TRACK TEAMS

Maroons, Illini, Badgers, and Michigan Look Best of Big 10.

Following the annual relay carnival of the University of Illinois Saturday, the relay over the track and field situation in the conference colleges was lifted enough so that it appears four teams will be contenders for the indoor championship at Patten gymnasium March 22 and 23 and for the outdoor title at State field March 23 and 24.

Chicago, Michigan, Illinois, and Wisconsin are represented by athletes who can score in the big meets. The Maroons gave stellar exhibitions of relay racing and Coach Jones has material from which to select one or two teams for the Pennsylvania relay games in Philadelphia April 26 and 27. The clean cut victories of the Midway runners in the one, two, and four mile contests show the "old man" has the nucleus for a track team which will be hard to beat in the indoor and outdoor classics.

The Maroon coach, however, will have to rely on his track stars for points, as there is a dearth of field men on the Midway.

Michigan Has Hurdles Star.

In Johnson Michigan has a hurdler who ought to win both events indoors and at least the high hurdles outdoors. It remains to be seen whether he has enough speed to win the 220 yard low hurdles. He is also a good high jumper, tying Rice of Kansas and Haigh of Michigan at 5 feet 10 1/4 inches.

Zoelein should score in the dashes for the Wolverines. He is much better over the century and furlongs than shorter distances. Haigh also should score in the high jump, while Baker may win points in the shotput.

Carroll a Good Sprinter.

Illinois has a reliable sprinter in Carroll, who also can travel the quarter mile around 50. He ran a beautiful race in the relay. If he does not have to do too much running in the dashes he should win points in the quarter. Wells won the shotput with a heave of 41 feet 2 1/4 inches, better than any of the other conference weight men have done. Lang's pole vault of 11 feet 10 inches is a good mark indoors.

Although Andrews was the only Wisconsin man to win points in the individual events, Coach Jones has men on his relay teams who will score in both conference meets. The Badger coach generally has more success with field men than track performers.

CHICAGOANS IN GOLF TOURNAMENT.

Pinehurst, N. C., March 3.—(Special.)—A field of over 230 players will meet at the use of two courses at Pinehurst tomorrow for the playing of the first eighteen holes of the qualifying round in the annual spring golf tournament. The entries include eight or ten Chicago golfers.

KAUFMAN BEATS JOE BISHOP.

Gary, Ind., March 3.—Benny Kaufman, Philadelphia bantam, was credited with the side over Joe Bishop in the ten round bout of the revival boxing show here last night. The show was run successfully under auspices of the Moore club. Indications are the contests will be continued regularly.

BY CORINNE LOWE.

NEW YORK.—[Special Correspondence]—If one is 5 feet 2 and has a profile without any whims one generally looks about for the things they were making up back in Athens in the time of Pericles. Indeed, the classic gown is always a mode which has its adherents, and there are many women who, realizing just like the Empress Josephine that the short waist and loose, straight skirt are the surest way to prove that you are not fat, will have nothing else but this kind of gown for evening wear.

Real Love Stories

What the Seer Forgo!

I had been advised by my physician to give up teaching for a year, as my health was not of the best. I had worked rather hard and had acquired a somewhat enviable reputation in my profession, so I decided to do so. I planned to go west, but decided to stop in Chicago en route and visit a school friend.

One afternoon we fell to discussing palmistry and fortune telling. We became so interested that the next afternoon while downtown my friend and I dropped in to see one of these seers. He told me that on my trip I should meet with untold play and my reputation as a teacher would suffer as a result. "But," he concluded, "I warn you, look into it!"

In a few days I resumed my journey and the incident was forgotten. On reaching my destination I found, after a time, that my services as a teacher were in requisition and that it would pay me well. In accordance with the law I went to the superintendent's office and took the examinations. They did not seem difficult and you can imagine my chagrin and disappointment when I received a report that I had failed to pass.

It hurt me more than I cared to tell, and one day I was thinking of the affair over when the words of the Chicago seer came to me: "I warn you, look into it!" I was directly in front of a lawyer's office so I went in and asked him to procure my papers from the superintendent and find out wherein I had failed. He did so, and much to my joy and the superintendent's discomfort, many of them were marked perfect. The strange part of it all was that not long afterward I married the lawyer. This part of the affair the fortune teller had entirely omitted to forecast.

To Order Dinner.

"Dear Miss Blake: Please tell me what is proper to say when introduced? When ordering a full course dinner what is correct? Is it proper to allow a fellow to kiss you good night?"

Just repeat the name of the one introduced and say with a smile, "How do you do, Miss (or Mr.)—". More than that isn't necessary unless it is someone to whom you might say, "I have heard a great deal about you," or some graceful remark of the sort. Do you mean in a restaurant? If so, you might order oysters, in some form, soup, fish as an entree; then meat and vegetables; a salad, and then dessert, and coffee. No.

Tribune Cook Book

BY JANE EDDINGTON.

True Corn Spoon Bread.

An indifferent eater can easily be made into a greedy one by giving him true spoon bread made of corn meal and not a grain of flour. Why do not the books tell us about the simplest of all spoon breads? You may read through a half dozen of our leading southern cook books and not find a single recipe labeled spoon bread. Our northern books and our most famous southern cooks who have made spoon breads have given us something like a soufflé pudding—thick and spongy. Most of them have added something besides cornmeal.

To cook cornmeal with the aim to get the most delicious effects from it, we need plenty of wet, and plenty of heat. The heat swells the meal by swelling the wet that is in it. Water turned to steam swells sixteen times its size.

A number of letters received lately have had complaints about recipes given in public demonstrations of cornmeal dishes, and particularly about corn bread, which must be served with a spoon. Those who think they know all about spoon bread say the spoon must be used, but I think the lovely thin oblongs or squares into which we may cut it and lift with a knife are most attractive. It must stand a bit after it is taken out of the oven before it is cut.

Greatly inside and really like the French "flan" was the spoon bread I made after I heard a young woman say the other day that nobody knew how to make true southern spoon bread. Her recipe is the same, cut in half, as one of the five for spoon breads to be found in the "Economy Administration Cook Book," but she said the baking pan must contain fat sizzling hot when the batter was poured in. Her proportions were one cup of sour milk, one egg, one-half teaspoon of soda, and one-third cup of cornmeal, and she did not describe her method.

The printed recipe reads: "To one cup of cornmeal add slowly two and a half cups of buttermilk; to this mixture add one teaspoon of salt, two well beaten eggs, one tablespoon of melted butter, and one-half teaspoon of soda. Pour this batter, which should be thin, into a hot, well greased baking dish. Bake and serve at once." The author of this recipe is set down as a society hostess and club woman from Mississippi.

This is what I did: Beat one egg light, added to it one cup of sour milk and beat until light and foamy, added a half teaspoon of salt and one-third cup of yellow corn meal and beat the whole thin mixture with the egg beater some more, and finally some more after adding a half teaspoon of soda and a tablespoon of melted butter. I used butter because I mean to try butter substitutes to see if they make a spoon bread equally good, as some of them at least will. The butter had been melted in an aluminum cake tin an inch deep and a little more than six inches inside.

For this quantity this insured the thinnest of cakes and the most agreeable. After the melted butter had creased every spot by tipping it around it was poured into the butter, beaten in, and the tin standing over a low flame received it. Where the batter was thinnest it puffed like an omelet.

This was baked for fifteen minutes upon the bottom of a well greased tin. The bottom had the most delicious medium brown crust. Part of it was spooned up while at the hottest. The rest was cut in squares, that delicious brown bottom part buttered, and when they were cold one could eat them with a high relish without being hungry. Try them!

THE SUCCESSFUL HOME GARDEN

This department appears daily and Sunday in "The Tribune." Inquiries regarding the home garden should specify its location and inclose a self-addressed, stamped envelope, as column space seldom permits an answer. No names will be published. Address The Garden Editor.

J. F. H. HEIDE.
LOCAL ATMOSPHERIC
INFLUENCES.

No. 2.

The noxious vapors and smoke overhanging great industrial centers and congested districts form a screen which obstructs the needed sun rays. On windless days during the growing season, this vaporous pall may accumulate sufficiently to cause a twilight when the sun is at meridian height. If then there is sufficient humidity to bear down this baneful mass, all vegetation is more or less injured. The garden may seem never so promising, and a momentary exposure to the blighting breath of this palpable monster will make it appear seared and lifeless. Soft coal fuel intensifies the menace.

Since THE TRIBUNE made this claim a year ago its findings have been confirmed by the reports of the head gardeners of the West Chicago parks and of the Missouri Botanical gardens in St. Louis. Chicago gardeners who disregard our warnings suffer accordingly. Thus, about July 25 and again on Nov. 10 the lowering smoke and sulphur fumes left their destructive mark on the contents of gardens and greenhouses even beyond the outlined limits. Many attributed the conditions to disease and insect pests. True, the lack of vitality in such stunted plants renders them more susceptible to disease and plant lice, but the underlying causes are smoke and noxious fumes.

Some plants are more resistant than others. Hence it is necessary to know just what will thrive under the atmospheric limitations of any given locality before proceeding with our garden plans. There is a marked scarcity of practically all garden seeds this year, with prices up in proportion. We therefore owe it to our purse and to other gardeners everywhere to waste no seed by sowing anything forced to failure under local soil and atmospheric conditions.

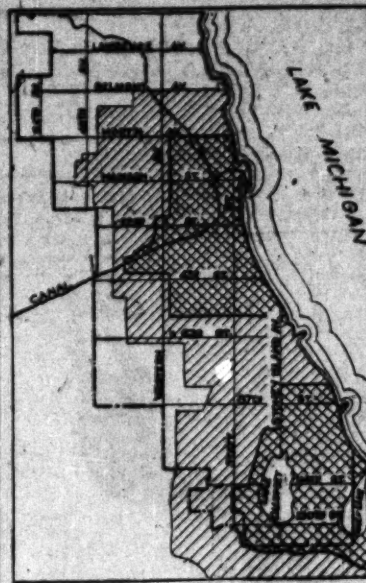

The accompanying map arbitrarily and roughly divides the vicinity of Chicago into three principal zones. The darkly shaded portions represent the first zone, in which only a few of the hardier plants may be depended upon to exist. The lightly shaded or second zone is satisfactory for all but the most delicate vegetables. The unshaded or third zone is but little or not affected and is therefore suitable for all plant life adapted to local soil and climate.

Let it be understood that there is no district boundary within which a given plant may or may not be grown successfully. There are unfavorable spots in the second and even the outer or third zone, in which the plants recommended may prove disappointing; they cannot be indicated on so small a map. So, too, there are favored spots in both the first and second zones where more delicate plants would respond to intelligent care. However, the inexperienced are urged not to exceed the list of recommendations for the zones in which their gardens lie. As soldiers of the community, let our first consideration be conservation of effort and of seeds.

All vegetables require sun at least a portion of each day. Those recommended for the second and third zones should preferably be exposed to sunlight all day.

In the first zone, except under extremely unfavorable conditions, the following are recommended:

Beets, Caraway, Celery (for greens), Chervil, Chives, Dill.

Fennel, Kale, Kohlrabi, Lettuce, Mint, Onions (green), Parsnips, Rutabagas, Saffron, Spinach, Summer savory, Sweet basil, Sweet marjoram, Thyme, Turnips.

In the second zone, the following may be added:

Anise, Cabbage, radish, Cabbage, Savoy, Celery, New Zealand, Sweet basil, Sweet marjoram, Thyme, Turnips.

In favored positions in the second zone, the following will respond to good care:

Asparagus, Beans, Brussels sprouts, Cauliflower, Cucumber, Eggplant, Mushrooms, Peas, Peppers, Tomatoes.

Peas, too, will yield moderately in early soil, but not sufficiently for profitable market gardening.

In the third zone, besides all the foregoing, the following are recommended for trial with proper care:

Cucumbers, Potatoes, Strawberries, Muskmelons.

In the first zone the following should not be attempted: Beans, berries, cucumbers, eggplant, lentils, melons, parsnips, peas, peppers, potatoes, tomatoes, and turnips.

In the second, berries, cucumbers, eggplant, melons and potatoes should be avoided.

Under the most unfavorable conditions of shade, smoke and fumes, neither seed nor effort should be wasted on anything but Swiss chard, early leaf lettuce, kohlrabi used as kale, parsley, celery as greens, chervil, and chives. Swiss chard will often repay the effort where all else fails.

The specific varieties of plants will be taken up in due time.

Not Even Villa
Can Dodge 'Doug'
When in Action

"HEADIN' SOUTH."

Produced by Arterial.
Directed by Arthur Rowson.
Presented at the Starfield.
The Cast:
"Headin' South".....Douglas Fairbanks
"Spanish Joe".....Frank Campana
The Girl.....Katherine MacDonald

By Mae Tinee.

There's more action contained in the five reels of this latest Fairbanks picture than occurs in the life of the average human being. For which, thank heaven, say we all!

There's cause for action here, though, as you will agree when informed that the redoubtable Douglas, as a member of the mounted police, captures Villa—yes, they call him "Spanish Joe"—in the east. Highly improbable, sensational, and acrobatic are the tactics used—nobody but Douglas could use even in a picture, but they make "Headin' South" and how the youthful theater-going contingent is going to applaud the hero!

Aside from the star, which is Douglas at his Fairbanksian, Frank Campana is the center of interest. He is a splendid actor, sure to make any picture in which he appears worth while. Katherine MacDonald, the girl in the cast, hasn't anything to do but look pretty and pathetic. This she performs satisfactorily.

There's a lot of hard riding, much scenery, enough shooting and calisthenics to suit anybody, and enough of a story to suit anybody's reckoning. "Headin' South" will go well in the Fairbanks districts.

Katherine after listening to the conversation said: "Mother, won't that chair hold two?" M. K.

DON'T SUFFER
WITH NEURALGIA

Use Soothing Musterole
When those sharp pains go through your head, when your face seems as if it would split, just rub Musterole on your temples and neck. It draws out the inflammation, relieves the pain, usually giving relief in five minutes. Musterole is a cream, white ointment made with oil of mustard. Better than a mustard plaster and does not irritate. Many doctors and nurses recommend Musterole for neuralgia, rheumatism, toothache, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost bites, etc. It is of the chest (it often prevents pneumonia). It is always dependable. 30c and 60c jars, hospitals and drug stores.

Gloves are among the first new accessories sought in spring. All the new styles in the finer leathers are here in noteworthy assortments.
First Floor, North.

The Demands of Spring

Nature, herself, cannot be denied her bright new dress—and men and women and children and homes are after all just part of nature.

So this store has as diligently as in any former year gone about providing for these new demands of spring.

And with understanding which acknowledges that dependable quality is now more essential than ever, we can view the coming season secure in the belief that the service of this store will prove of indispensable value to our patrons.

Among the Finer Modes in Women's New Spring Suits

The more one notes these new suits assembled here, the stronger grows the conviction that here are

Suits ready for immediate selection which might have been made to individual order.

To fine fabrics and expert workmanship there is added a fineness of detail that distinguishes them far apart from the usual.

Both the Suits Pictured Are of Tricotine, Blue, Beige or Black

At \$67.50—the suit sketched at the right. Silk braid outlines the unusual pocket and repeats the line in the sleeve.

At \$82.50—the suit sketched at the left. Binding of silk braid gives prominence to pockets, revers, cuffs and collar.

Fourth Floor, North.

The New Silken Negligees Have a First Spring Showing

Their success is not difficult to predict.

Real springtime garments, exquisite in color, charmingly simple in line, and as is characteristic of the offerings here

At Prices Uncommonly Moderate

Every one the sort of negligee a woman is glad to know awaits her leisure hours at home.

At \$10—A New Crepe de Chine Negligee

Is fashioned with a quaint high waist, elaborately hand-embroidered, and a full skirt conveniently pocketed. Sketched at the right.

At \$12—A Slip-Over Negligee of Satin

Is wholly captivating. In Delft blue, coral or purple, embroidered in tones of blue and pale rose. The lines are graceful to an unusual degree. Sketched at the left.

New Negligees Are Here at \$7.95 to \$15.

Third Floor, North.

CARSON PIRIE SCOTT & Co

Footwear fashions for spring "1918," the new low shoes and high boots, in splendid variety. All are the subject of special showings here.

Three of the Newest Blouses One Chooses at \$8.75, \$10.75, \$12.75

If one needed any reason to justify the pleasure there is in anticipating a new fashion season, these blouses would be all-sufficient.

There's the New Blouse of "Gingham Silk," \$8.75

Soft silk in the delightful plaids one knows in gingham. Tailored in line with a white tub silk vestee fastened by linked pearl buttons. At left.

Blouses of Beaded Georgette Crepe, \$10.75

Not pictured here. In exquisite tones of gray, coral, orchid and maize with the beading taking the form of flat, round disks and done in contrasting colors.

Georgette Crepe Blouses Embroidered, \$12.75

The embroidery of course is hand-work, in cadet blue, and the crepe is either the blue, gray or beige. Note the new line at the collar in this blouse sketched at the right.

Third Floor, North.

Flower-Crowned Hats of Spring

Flowers maintain a dignity of height for turbans. Flowers soften the irregular lines that give smartness to the street hats.

Flowers accent the demure air of the Di rectoire poke hat. So goes the mode for spring.

In the French Room a Group of These Hats Is Presented at \$18

All in delightfully original interpretation. There is not a commonplace line in them. The color combinations attained are unusual. Each hat is individually designed.

Altogether an Out-of-the-Usual Showing.

15,000 POLISH
VOICES RAISED
FOR FREEDOM

Coliseum Jammed as Mis-
sion Tells of Great Bat-
tle for Liberty.

More than 35,000 Poles stormed the coliseum yesterday in one of the greatest patriotic demonstrations since war began, there to honor Ignace J. Paderewski and his fellow members of the Polish national mission. Above the solid wall of men and women, and over 20,000 thronged the adjacent arena. A parade of over 10,000, embracing every Polish society in Chicago, preceded the meeting.

Again at night, at the Morrison, they gathered, over 1,000, at a banquet in honor of Paderewski, which resolved itself into a vivid discussion of European politics; a demand for a free Poland with access to the sea; and a stern protest against talking peace with Austria-Hungary. Instead, for the sake of the world, Dr. Sisko Sisko, speaking for the Jugo Slavs, insisted on partition of the dual empire, and in Slavic parts be permitted to work out their own destiny, and thus create a Slavic bulwark against future German aggression and ambition. He asked, amid applause, that this message be carried even to the White House.

John P. Smulski was toastmaster at night, and other speakers were Leonard A. Busby, Capt. John Henry Wagner of the Polish army, John R. Palandach, J. A. Geringer, and Mr. Paderewski.

Poland's Flag with Old Glory.

The spectacle within the Coliseum was notable, with varicolored society mingles mingling with the flag of an old Poland, the Stars and Stripes, and the banners of all the allied nations.

Twenty-five men from the Polish national army, men who had seen service in the western front, acted as a guard of honor to the mission, consisting of Maj. Joseph Kosciuszko, Capt. John Henry Wagner, Lieut. Prince Stanislas August Poniatowski, Lieut. Stanislas Iwanowski, Capt. Stanislas E. Gonski, and Lieut. Jack O'Brien.

Crowd's Fervor Roused.

And it was enthusiastic, that audience. It cheered to frenzy every mention of a free Poland, of duty and gratitude to the United States, of fighting until complete victory, Mr. President Wilson, and when Mr. Paderewski declared that European peace and the safety of American democracy will not be assured until "a wall of united Slavic races, 54,000,000 strong, extend from the Baltic to the Adriatic, acts as an eternal curb to Prussia's ruthlessness," the audience arose and sent forth a shout that shook the building.

John W. Thomas, vice president of the local branch of the National Security league, introduced former Secretary of War Jacob M. Dickinson as chairman.

Considered but Not Enslaved.

"We of the mission are merely symbols," said Mr. Paderewski, "symbols of an ancient, valorous race, representatives of a nation made unhappy by oppression, but never enslaved. Poland grows under the oppressor. In only one province is there a semblance of government, and that is because a few high minded Poles, courageously and unselfishly, are giving their lives, without official sanction, to the maintenance of order. The bourgeoisie of this province are as proud as the aristocracy of the rest of Poland, and as the wickedness of Germany is a certainty.

"The Polish national army is fighting for a united, independent, ancestral country, with access to the sea, for the reunion of all ancient Polish territory, after 144 years of tyranny. We want have Dantzig, our natural harbor, of which we were robbed by the congress of Vienna.

Fears the German Wolf.

"We cannot depend upon a German treaty for our rights. A treaty can transform a ferocious wolf into a docile lamb. Equality may be taught by education, fraternity by religion, but liberty must be conquered.

"We go to the fight, my own, my Polish boys, on, Boleslaw, Jugo-Slavs, Moravians, the immortal spirits of Washington, of Lincoln, will be blessing you on your way to glorious deeds and immortal fame."

Charles S. Darrow declared America to be "with Poland in all her long, dreams, hopes, and aspirations," and delivered a fervent protest against peace talks.

Wants Japan's Help.

"I have no patience with any people who ally nation who talk of peace now," he said. "Peace will come when the German military machine is destroyed—not before. It would be worse if the world were to go down in peace than to have an inconclusive peace, for then we have a cowardly spirit of freedom to cherish, but we temporize and make a cowardly peace to save our bodies, we shall lose the earth. The earth is not big enough for the German military machine. And if the Japanese want to ally with us, let them. It's a question of Russia shall go to Japan or Germany. I say Japan a thousand times."

Other speakers in the afternoon were Lieut. Kosciuszko, Lieut. Vladimir Skobla, the Serbian army; Dr. A. Blankini of the Jugo-Slavs; T. M. Helinski, for the Polish mission, in Polish, and J. J. Geringer for the Bohemians in Czech.

SWEET, AND NOT LOW
BY PERCY HAMMOND.

It was a stupor night at the Illinois, with the honeyed Miss Sanderson strutting pretty gum-drops in sweet profusion to gentle music by Victor Jacob, sentimental narrative by Harry E. Smith and genial waggery by the fastidious Mr. Cawthorn.

"Rambler Rose" was the headline of the entertainment, a musical play of the Frohman school, which means that it was softly emotional, containing many polite love songs, a daring adventure by the demure heroine, a romance between her and a frosty artist, and a chorus of mild women.

Miss Sanderson, though employing her egregious super-amie a bit persistently, seemed lovelier than ever. She raised her still, small voice in song, as usual, and danced as she sang, among the prima donnas, can dance. She knows more about the reticent kick beneath the lacy pinstrip than any of the sisterhood, and in her seductive glides and swishes she finds a means of the studios, determined, insistent sweetness of her affections. She is overdone and new made hay.

In her present "Rambler Rose" period she is a penniless but richly dressed charity pupil at a smart English girls' school in love with a child painter of landscapes. Thence to Gerald's studio in Paris with the revels of gay chorus men who dance until dawn, and the bold intervention of Angela, an actress, with whom Gerald is infatuated. Again thence to the Casino at Deauville, where in blissful conclusion love flutters upon its silken wings and settles at its proper destination.

What you may wonder, has the found Cawthorn to do with all this bluest transaction. Mr. Cawthorn, nearly barefoot of his feet, is a guppy, an amiable clown, enamored of Miss Sanderson, and trailing her across the Channel to what he calls, reminiscence, the arteries of Paris. He uses only one other old one, and that is when Lady Coverdale tells him that her husband was killed in a feud. "That's what you get," he says, "for riding in those cheap cars." A likable jester, Mr. Cawthorn, who aids his drooleries with just enough of an ingratiating grin, smiling at his troubles rather than at his jokes. His songs, this time, lack the comic wallop that some of his others have had, but he proffers with considerable skill a rhymed and pathetic dog philosophy called "Poor Little Rich Girl's Dog," sympathizing thoughtfully with the pampered Pekinese who is not allowed to banquet in the garbage pail.

At first, to earn Miss Sanderson's teetotal smile, he undertakes fox-hunting, and gets many a laugh with the recital of his equestrian mishaps. Then he tries poetry, suspecting that she may have a passion for balladry, and still, unsuccessfully, he next embraces sculpture, and models with frequent wheeze and caper, the uncouth visage of an elderly kinsman from Brazil. He is funnier than before, and with less obvious material to work upon.

THE CHICAGO DAILY TRIBUNE
THE WORLD'S GREATEST NEWSPAPER
MONDAY, MARCH 4, 1918.

Man Leaps from Viaduct
with Quack's Advice
in Pocket.

Harry Naylor, 42 years old, of Kalamazoo, Mich., jumped off the Randolph street viaduct yesterday afternoon. Naylor failed in an attempt to commit suicide. He is at the county hospital with fractures of the leg and arm.

In Naylor's pocket was a cleverly worded patent medicine ad clipped from an issue of a Chicago morning newspaper. It announces that a kind hearted old soul of Dayton, O., has "for years been giving free advice to millions of people through the press columns and doubtless has helped in relieving illness and distress more than any other single individual in the world's history."

Fame Ignores "Old Doc."

In spite of the old doc's history making efforts toward relieving distress and suffering, reputable physicians said last night they had never heard of this wonder in the world of medicine.

Naylor is deaf and dumb. In answer to written questions he admitted last night that he came to Chicago to see a doctor. He would say no more.

Physicians believe Naylor was worried to death over his condition by reading just such ads and others printed in the same Chicago newspaper. Below the ad, and possibly also paid for by him, was another that started off like this:

Sample of Ad.

"Pain, Pain, Pain!"

Physicians said last night that the patent medicine ads were the cleverest they have seen in months. "Doc" doesn't capitalize the names of his medicines. He puts them down in small type and calls attention to them in his "free advice." Here are some samples:

"Oris" writes to learn how to purify his blood. The wonderful doc of Dayton advises:

"I advise three grain sulphur tablets (not sulphur tablets) composed of sulphur, cream of tartar, etc. Take this treatment for several months for best results."

"Sulphur" tablets, say physicians, are a hitherto unheard of drug.

More Free Advice.

Another patient, writing for "free advice," is advised to use a "tonic invigorating medicine called three grain cadomene tablets." Another is advised to use "balm-o'-Gilead" tablets; another "mentho-laxene."

"If your druggist does not have mentho-laxene, have him order it for you of the wholesale firm," is some more of the "free advice."

Naylor will recover. He failed to die simply because his body struck some of the viaduct supports before striking the ground. Before he leaves the hospital, physicians will write him a note explaining the "what" and "manner" of "docs" and assuring him that, beyond his deaf and dumbness, he is physically sound.

"OLD DOCS" ADS
GIVE A CLEW TO
SUICIDE ATTEMPT

Man Leaps from Viaduct
with Quack's Advice
in Pocket.

Harry Naylor, 42 years old, of Kalamazoo, Mich., jumped off the Randolph street viaduct yesterday afternoon. Naylor failed in an attempt to commit suicide. He is at the county hospital with fractures of the leg and arm.

In Naylor's pocket was a cleverly worded patent medicine ad clipped from an issue of a Chicago morning newspaper. It announces that a kind hearted old soul of Dayton, O., has "for years been giving free advice to millions of people through the press columns and doubtless has helped in relieving illness and distress more than any other single individual in the world's history."

Fame Ignores "Old Doc."

In spite of the old doc's history making efforts toward relieving distress and suffering, reputable physicians said last night they had never heard of this wonder in the world of medicine.

Naylor is deaf and dumb. In answer to written questions he admitted last night that he came to Chicago to see a doctor. He would say no more.

Physicians believe Naylor was worried to death over his condition by reading just such ads and others printed in the same Chicago newspaper. Below the ad, and possibly also paid for by him, was another that started off like this:

Sample of Ad.

"Pain, Pain, Pain!"

Physicians said last night that the patent medicine ads were the cleverest they have seen in months. "Doc" doesn't capitalize the names of his medicines. He puts them down in small type and calls attention to them in his "free advice." Here are some samples:

"Oris" writes to learn how to purify his blood. The wonderful doc of Dayton advises:

"I advise three grain sulphur tablets (not sulphur tablets) composed of sulphur, cream of tartar, etc. Take this treatment for several months for best results."

"Sulphur" tablets, say physicians, are a hitherto unheard of drug.

ARMY AND NAVY
OFFICERS TAKEN
IN HOTEL RAID

Thirty-three Couples Ar-
rested When Police
Visit Lombard.

Thirty-three couples, including an army officer, a naval officer, and an enlisted man, were arrested early yesterday morning in a raid in the Hotel Lombard. The raid was directed by Second Deputy Funkhouser. Detectives were led by Lieut. William Schoemaker. It was during the raid that the complaint of the small hotels that the loop hotels are immune from vice investigation.

Lieut. Schoemaker's men declare they found many of the rooms fitted with "property" suit cases, so that guests coming without baggage would have evidence of moral purposes. Mrs. C. C. Collins, owner of the hotel, M. W. Kennedy, the manager, and Stephen G. Heyghorst, the clerk, all denied that suit cases were provided in the rooms as "camouflages."

The raid took place shortly after 1:30 o'clock in the morning. For some hours previous to this detectives had been perched upon various vantage points, nearby windows upon the elevated platform at Wells and Quincy streets, and in the streets, making notes of the arrival of guests in pairs. It was noted that many came without baggage. When a time seemed propitious, word was sent to Lieut. Schoemaker.

Asks for Warrant.

Heyghorst, the clerk, and Dell Lyons, a bell boy, were arrested. The clerk proposed the hypothesis that he could not be arrested without a warrant. He was assured, somewhat emphatically, that he was quite wrong. He was locked in Central station. Detectives took charge of the telephone switchboard and guarded all elevators and entrances.

Lieut. Schoemaker scanned the register and decided to use "D. and E. Lewis" of room 304 as a test. Heyghorst told the detectives that men occupied the room. He was mistaken. With police in the room, the men began on the top floor and entered each room. General consternation ensued. Screams of women and subdued oaths of men were frequent. Bribes of money and jewelry were offered in endless profusion.

Women Hide Faces.

The whole contingent was marched into one of the parlors and an invoice taken. The women hid their faces in furs and other wearing apparel, and the men were angry beyond expression. The women were taken to the Clark street annex in patrol wagons and the men to the Central station. The men tried to provide taxicabs for their companions, but these offers were refused.

Soon after the trip to the police station, the women began arriving, and most of the captured were soon free again, all with the exception of the men. These were held and were turned over to the government authorities later in the day.

Twenty-eight couples were seen to enter the hotel and only nine carried baggage, according to Lieut. Schoemaker's report. Upon questioning, the couples were declared that they were married, but they later admitted they had lied.

Arrive, but Depart.

Heyghorst said the raid was unjust; that he was under strict orders to admit none save those of whom there was no suspicion. While he was explaining, a number of couples arrived in taxicabs, but immediately departed. One was a first class hotel. The men had been running for months under the guise of immunity, because it was regarded as a high class hotel. He said information reform organizations have complained and there is evidence to convict. Kennedy said the hotel was operated with due regard for the conventions.

Resolutions asking the abolition of the special bar permit dances, "which seem to be a special menace in wartime," were adopted Saturday at a meeting of the Open Door club, composed of women living in Bowmanville in the northwestern part of Chicago.

HIS SHOTS STOP
CHILDREN'S PLAY;
COPS TAKE HIM

Children in noisy play in front of his home at 1444 Elmhurst avenue last night disturbed Patrick Garret, 37 years old. He fired several shots from a window on the second floor. Lillian McNamara fell to the sidewalk.

Then three breathless children rushed into the Maxwell street station to tell about it. "Girl is shot," one of them contrived to tell.

The police found the McNamara child unhurt. She had merely fallen. The detectives had to threaten to break down the door before Garret would admit them. And they had to struggle to disarm him of a knife.

"The children were noisy; they wouldn't be quiet," he said when locked up.

Mistak Jackson's Aim Bad;
Wounds Two Not Intended

Charles Jackson, colored, may be handy with a razor, but he's erratic with a gun.

He was thrown off of "Doc" Reynolds' pool room, 4139 Wells street, last night. He returned for vindication and revenge.

Bullets intended for Reynolds struck Joseph Little, col., 1, 4803 South State street, below the heart and wounded Brooks Chism, colored, 4132 Federal street, in the right arm. They were playing pool.

Jackson is meditating at the Fifth street police station.

BANDIT, KIDNAPED
FROM HOTEL, IS
BROUGHT TO JAIL

Patrick Donovan Tells
How Gang Took Him
to Brooklyn.

Patrick Donovan, confessed member of the robber band which held up the Stockmen's Trust and Savings bank, who was abducted by his fellow gangsters from a comfortable berth in a loop hotel where he was held prisoner, took up quarters in the county jail yesterday upon his return from Brooklyn, where he was recaptured.

Donovan confessed the manner of his abduction, explaining he was in the Briggs house on the evening of Feb. 5, in charge of a detective from State's Attorney Hoynes's office, when he was told that "Spike" O'Donnell, another of the gang, wanted to see him near the Hotel La Salle. Donovan, who was in a car, was driven to Fifty-sixth and Loomis streets, the home of O'Donnell's relatives, where he stayed over night.

In Chicago Ten Days.

The next day he was taken to the home of Robert Johnson of 1435 Fargo avenue, uncle of O'Donnell. On Feb. 11, John and "Spike" O'Donnell and Donovan were driven to Whiting, Ind., and there took a train for New York. It was with the arrest of Johnson that search started. John O'Donnell was next arrested. He made a partial confession.

A week ago he boarded a train in Pittsburgh, and, seeing Detective Sergeant Edward J. Connelley, who had a prisoner in charge, in a seat, he sat down and chaffed the detective good naturedly, declaring that Donovan never would be returned.

"Spike" Still at Large.

"Spike" O'Donnell still is at large, Frank McGee, Frank Bender, now in Joliet, Abe Schaffner, who is at large, and George Raymond, killed in a street battle with the police, were the others sought for the Stockmen's bank robbery.

Edward Fleming, secretary to Hoynes, said last night that nothing has been found to connect the name of State Senator Timothy Murphy with the Illinois Central station robbery.

Three men robbed the United Cigar store at 540 West Van Buren street of \$4 last night. John Parmalee of 1651 North Cicero avenue had his pocket picked of \$10.

Thomas Touhy, alleged safecracker and burglar, with John Crawford and Fred Martin, who were arrested Saturday, will be questioned today by Chief Mooney of the detective bureau concerning their participation in the robbery of the Southwest Trust and Savings bank.

Veteran Policeman, Taken
Ill While on Beat, Dies

Chester P. Smith, a patrolman of the Austin police station, became ill on his beat Saturday night at Kilpatrick avenue and Iowa street. A patrol wagon removed him to St. Anthony's hospital, where he died early Sunday. Smith lived at 444 West Adams street.

BEG YOUR PARDON!

In Wednesday's issue, Louise James Barrett reported Wallace Rice, in his Art Institute lecture on flags, as describing the Illinois state banner to be of "stripes of red, white, and blue." The banner, which is Mr. Rice's design, is white and blue.

THIEVES DE LUXE
RAID RESIDENCES
FOR \$10,000 LOOT

Pastidious burglars, familiar with the comings and goings of prominent Chicagoans, were active last night with a profit of from \$8,000 to \$10,000.

They paid two calls, making three in the last four days, both at residences they had reason to know would be deserted. One was profitably financially. The other satisfied the curiosity of the "social climbers" more than their rapacity.

Open Up Everything.

The profitable visit was at the residence of Edward R. Heisler at 445 Melrose street. There the burglars opened drawers and jewel boxes and every receptacle they believed might contain articles of value.

The robbery was reported to the Town Hall police by Mr. Heisler, who is president of the Heisler & Jones Baking company at 301 West Thirty-ninth street, when he discovered it after he and his wife returned from the theater. He placed his loss at from \$8,000 to \$10,000.

Prindville House Entered.

Before the visit to the Heisler house the same burglars are believed to have entered the residence of Lieut. and Mrs. Thomas J. Prindville at 135 East Chestnut street. They were evidently aware that the Prindvilles, who were remarried last Wednesday in New York, were out of the city.

The burglars entered by a rear window, which they broke. They searched the house carefully, tossing clothing out of bureau drawers and emptying desk and table drawers as well.

Then they left, apparently ignoring valuable plate on the sideboard and other articles of value, but also of bulk.

The descent on the Prindville house had evidently been carefully planned. The telephone wire leading to the home had been cut, which would have prevented a call for help from any one in the house, and neighbors reported that suspicious looking persons had been seen in the vicinity a few hours before the burglars entered the house.

Similar Case Reported.

The residence of Henry M. Hubbard at 87 Cedar street had been visited Friday night by burglars, who had acted much in the same manner as those who visited the Prindville house. The Hubbards are in California.

Aloock Sets New Ramors
About Schuetzler at Rest

Rumors that Chief Schuetzler will return from his vacation to Florida within the next few days and reassume command of the police forces were denied by Acting Chief Aloock last night. He said that in letters received from the chief he had stated it as his intention to remain on furlough until March 15.

The reported return of the chief was also accompanied by the revival of the rumor that he will resign.

AMERICANS MADE
TOO FAST, SAYS
MARY M'DOWELL

Miss Mary E. MacDowell, head resident of the University of Chicago Settlement, spoke yesterday before the Chicago branch of the National American Woman Suffrage association, in support of the federal amendment.

"Our chief line of endeavor should be first to make the children of the foreign born appreciate the culture of their parents' native land, and, second, to teach the adult the ideas and customs of America, by lecturing to them in their own language. New ideas too rapid Americanization of the children into part, rude young people is a greater danger than the problem of the non-English speaking parents. It is not the language we teach them, but what the language inspires that counts.

"It is nonsense to say that we hold immigrants back by keeping up the traditions of their country and keeping alive the foreign language. New ideas can be gotten across only by speaking to them in a language they understand. When they understand American ideas it is only natural that they will want to learn our language."

Miss Stella Skinner, head of the art department of Northwestern university, presided.

LITIGATION NOT
A LOYALTY TEST:
FRIEDA HEMPEL

Frieda Hempel, one of the soprano stars of the Metropolitan Opera, was in Chicago yesterday. Asked as to the story that she was to sue a Chicago trade weekly, *Music News*, for what she called at the time defamatory statements concerning her feeling for the representative:

"Loyalty is not a matter to be promoted by law. The article was defamatory in its allegations that, while I was singing to American audiences for Berlin. The advertising solicitor who wrote the article has been barred by the management from the Metropolitan Opera house, and I think it wise to be satisfied with that, so long as the offense is not repeated. Why give up to prosecution when the conduct is the sole test of loyalty? Besides, I'm afraid that the article would have attracted no attention whatever if I had not expressed my resentment at it."

FURNESS, FRIEND
OF DEAR, SEIZED
AS AUTO THIEF

Walter J. Furness, an accomplice of Earl Dear, who is under sentence of death, is under arrest in Boston and will be returned to Chicago for trial as a participant in the thefts of the "automobile thieves' trust," alleged to have been directed by Eric Bond, a Minneapolis real estate dealer.

Furness was indicted with Dear, James Branny, Jack Althorn, Frank Parker, Francis Kleinman, and Frank Burns. Branny, who was acquitted on a second trial after being sentenced to death for murder, is said to be in South America. Burns and Kleinman also are at large.

Bond lost his fight against extradition from Minnesota to Chicago and is to be tried. Furness was arrested under the name of Walter Fisher in Cambridge, Mass., on Feb. 23. It was not until later his identity became known.

First Robin Concludes
to Fly Further North

A letter was received by TIM TAM yesterday from G. P. Lewis, 4707 St. Lawrence avenue, in which he states "the first robin of the season was sighted this afternoon by T. C. Reilly of 5652 Prairie avenue and myself. When last seen he was heading north through Washington park. Would suggest that you publish this if you desire real news."

GRANT PARK BOWS
TOWARNEED WITH
FOOD SAVING SIGN

Even Grant park has succumbed to the tradition destroying effect of the war, and Michigan boulevard automobilists will see a huge sign staring toward them this morning when they slip across Jackson boulevard on their way to the shops at the business end.

The billboard urges the conservation of food as one of the essential steps toward winning the war, and is the first ever erected in the city's downtown playground. That it should be a message of Grant park is due to the persistence of Thomas Cusack of the Thomas Cusack company and the local representatives of Mr. Hoover's department.

Reluctant permission to use the park was obtained from the South park board only after it was pointed out that the spot was one of the most conspicuous in the city, and the Cusack company had volunteered to keep the usual limit from the board, so that there could not be a recurrence of the objection made to the presence of signs in other parks bearing the name of the donor.

Dutchman Declares War on
Kaiser of Own Accord

Camp Grant, Ill., March 3.—[Special.]—Jan Servais, captain of the new recruits in E company, division of the 101st infantry, declares that Dutch neutrality has ceased to be a virtue.

Jan is angry with the Kaiser. He has been growing more so day by day since the fall of 1914, when he spent three days on high seas in an open boat after escaping from the Hun torpedoed Kallela, a Norwegian freighter on which he was a stoker.

He reached Chicago after a hard and stormy voyage, and found it impossible to enlist. When the Hyde Park contingent boarded its troop train for Camp Grant last week he caught the back coach and refused to be put off.

Hearty welcome here and the issue of an extra O. D. uniform has given him his chance, and Jan hopes to get the first neutral knockout against imperialism.

Boy's Suicide Effort
Softens Fiancee's Heart

James Smyth is 20 years old and when the girl he loved told him he was too young to think of marrying he swallowed poison. They took him to the Cook county hospital.

His fiancée, Miss Mulac of 2445 South Homan avenue, promptly appeared and knelt by his bedside.

"Jimmy, I was wrong. You're not too young. And I do love you," she said.

It was announced later that the wedding date would be fixed as soon as he recovers. He is a printer and lives at 1506 North Springfield avenue.

A Complete, Exclusive Specialty Shop for Women

Everything Is in Readiness for the Bright Days of Spring

As surely as the melting snows give place to the buds and blossoms of the new season, womankind joyously exchanges her winter apparel for the newer, lighter modes.

Prevailing conditions and obstacles have been only an added incentive in the care and preparation which is so convincingly evident in

The Completeness, Exclusiveness and Appropriateness

Of the Apparel and Accessory Assortments

which we present for the selection of all discriminating Women, Misses and Girls.

Leaders of Fashion who are devoting themselves to service for their country will find every need of the hour provided for in attire that combines the charm of individual style creation with all essential practical qualities.

SERVICEABLE DRESSES of Tricotine, Poiret Twill and Serge introduce distinctive panel and tunic originations in the delightful one-of-a-kind models that so distinguish the wearer of a Stevens garment.

Artful simplicity of line and adornment reveal the beauty of such rare fabrics as Voile Etamine, Voile Gabardine and richly colored Silk Jersey designed as street costumes and for all afternoon purposes. These are the kind of frocks you will find difficult of duplication later in the season.

THE VOGUE OF THE SEMI-DRESS FROCK promises to be greater this Spring than ever before—so forthright has inspired an irresistible collection of models which find expression in expertly combined Georgette and Foulard, Metzer and Georgette, Taffeta and Georgette. Versatility of design and trimming detail emphasize the opportunity for personality in dress here presented. Prices range from \$25 to \$50 and up to \$115.

The mystic lure of the Orient—the free grace of American womanhood—the military trend of the times—equally responsible for the artistry employed to fashion the lovely assemblage of

Draped Cape Models Which Stylish Women Will Wear This Spring

Such materials as Silvertone Velours, Peau de Peche, Tricotine, Serge, Covert Gabardine are fashioned with draped vests or vests emerging into sash-belts—collar treatments vary from plain tuxedo to commanding officer styles, draped shoulders and Inverness capettes invite attention—charmingly feminine all of them, and very practical, too. \$45 to \$150.

Particular Offerings in Utility and Street Coats

in extensive display are featured in Velour de Laine, Bolivia Cloth, Peau de Peche, Tricotine and Serge. Interesting belt innovations reflect one of the most important of new Spring mode developments. Prices range from \$35 to \$75.

REPLETE with FROCKS, SUITS AND COATS which acclaim in every line the naive, youthful characteristics which define the touch of the expert in all the

Flat Feet, Broken Arches and Weak Ankles CORRECTED BY Larson's Anatomic Sta-Right Shoes

Do you suffer with pains in the small of your back or the calves of your legs, or do your nerves twitch in your limbs, have you pains in the steps and ankles? Do you think these are rheumatic pains? Thousands of people come to me every year that suffer with these ailments. They are caused from torn ligaments, strained nerves and muscles in the instep which are pushed out of place and cause a disturbance throughout the whole system. These pains are a warning that the arches are breaking, and unless given support flat feet will result. The Larson Anatomic Sta-Right Shoes are reinforced with steel plates at the insteps—adjusted to meet the requirements of each individual.
